Howdy Jim...It looks like you're busy as usual. Unless I'm mistaken, we're both returning to Japan in June. St. Louie in March. It'll be good to see you again if that's the case. We plan to wrap up our pair project (ponds) soon and work on Marine studies next session. I've signed up for the teacher at sea program that NOAA runs in the summer & will take my partners to several of the local agencies that dabble in salt waters when we have the study tour. Whataboutyou? Any pair projects in the works this early in the season? Cheers, Jim McElroy
